PERSONAL STATEMENT

I'm a reliable 17-year-old from Bath with a year of full-time work behind me as a general labourer, where I learned to be on site early, work safely alongside a team and get on with the job without being chased. I'm now looking for my next role — I'm happy doing hands-on work, dealing with customers or learning a trade from scratch, and I pick things up quickly once I've been shown. What I'll bring to an employer is turning up on time every time, working hard through the whole shift, and doing the job properly rather than quickly.

EMPLOYMENT

General Labourer — *Gen Tip, Bath*

2024 – 2025

- Maintained a full attendance record across 12 months of early starts, giving the site team someone they could count on every shift.
- Worked to daily instruction from the site supervisor, then relayed those instructions clearly to keep jobs moving on time.
- Applied site health and safety procedures every day — correct PPE, clear walkways, and hazards reported before they caused an incident.
- Set up and cleared work areas at the start and end of every shift, leaving the site safe and tidy for the following day.
- Handled queries from other trades and members of the public politely and calmly while work was underway.

KEY SKILLS

- **Reliability.** Punctual, presentable and consistent — if a shift is on the rota, I'm there.
- **Teamwork.** Used to working in a small crew, taking instruction and passing it on clearly.
- **Health and safety.** Trained by experience to spot hazards early, keep areas clear and follow procedure properly.
- **Communication.** Straightforward and polite with colleagues, customers and members of the public.
- **Physical work.** Fit and hard-working, and used to long days in all weather.
- **Willing to learn.** Happy to take on training, certificates or a qualification for the right job.
